Hi Linda,

Sorry, it has taken me awhile to respond to you. I haven't really seen much happen with regard to this petition and any response in a long time. I went through my calendar and found a couple of meetings in late 2017/early 2018. The attached document was an initial briefing paper at the 2018 meeting.

I was also involved with some discussions about neonic mitigation measures in 2019, but those mitigation measures raised a lot of questions for OGC. And as far as I know, they weren't resolved. (I think this was separate from the treated seed petition, though.)

Also, Don Wilbur sent an email in early November with a ChemSAC proposal for seed treatment. Other than that, I'm not aware of anything happening on the petition.

Please let me know if you'd like to discuss or think about next steps. I'm around through 12/22, and then out from 12/23-1/3.

Thanks,
Angela

Hi Erin

I hope you are having a good day. Just checking to see if you have any information for my team on this issue. We took over from another branch and find ourselves trying to gather information for the petition response. If you can let me know as we believe from the other branch we need to respond in Q2 to coincide with the neonics.

Thanks

Linda Arrington, Branch Chief

Subject: RE: Treated Seed Petition

Hi Michele and Angela,

I want to circle back with you from my message below to see if you have any background information on the treated seed petition that you can share with us. In particular, we would like to learn about any decisions that were made on how to move forward with the petition.

Please let me know if it would be easier to discuss the petition than pass information via email. I would be happy to set up a meeting.

Thanks,
Sue

**Subject:** Treated Seed Petition

Hi Michele and Angela,

I hope that this message finds you well.

Quinn Gavin and I have recently been assigned to work on the treated seed petition in PRD. We received your names as the contacts for the petition in OGC. Please let us know if that is not the case (and, if so, who the correct contacts are).

We are trying to gather information on the project history. In particular, we would like to learn about any decisions that were made on how to move forward with the petition. Please let us know if you have any background information that you can share with us. We would like to review any available materials and then likely will want to set up a time to discuss the petition and next steps with you.

Thanks in advance for any information that you can provide,  
Sue
